## STRIKING COAL MINERS

History of the Stubborn Fight in the Hocking Valley.

Origin of the Difficulties and the Disastrous Results—Three Thousand Men Idle—Arrangements Completed for Arrests.

COLUMBUS, O., Nov. 28.—The strike in the Hocking Valley is one of the most remarkable in the history of this State. It has brought about great suffering among the miners, and it is now threatening the outside assistance that has been received. If there has been suffering during the pleasant months just passed, what must be in store for the winter? Many of the miners still live in houses owned by the coal operators. In many instances no ejjectment have been commenced. If they are thrown out of these dwellings, as most of them are, where will they go? They will be at the most deplorable indeed. Those who have homes of their own, or dwell in houses which are owned by the miners, will not be compelled to house them, but the necessity of securing the dwellings occupied by the strikers and owned by the operators. The operators claim that these are large houses, and that the miners are healthy and willing to go to work, and would do so if not for the system of bulldozing and intimidation which prevails among the strikers. The strikers claim that the operators now ought to move to another organization, and that the miners of the valley are determined to break it up at all hazards. The operators do not deny that they are determined to do longer recognize the Miners Union. On this point both parties concur nearer agreeing than they do on any other. The miners hope that hopes for arbitration to settle the difficulty, but both sides appear too obstinate for anything to result from it that would be of any material benefit.

The miners are not in a starving condition, though they are not in the same time they need assistance right along, and if this thing continues there will be great suffering in the valley. The working miners in other districts are contributing generously, and the miners of the valley are doing their best to help. The miners are making good wages, and could easily afford to pay sixty-five cents per ton, provided the miners would reduce the price of mining to sixty cents per ton.

The miners claimed that they would be allowed to take the miners back wages. They said that the miners had to purchase powder, oil, etc., at the operator's stores at figures greater than they could buy the same articles elsewhere; that after they took this cost, as well as the cost of keeping tools in order and supplies, they had nothing left for the expenses of life, together with the risk to be run in the mines, they could not afford to the demand. On the other hand, the operators claimed that the miners were making good wages, and could easily afford to pay sixty cents per ton, if they could see their way clear to pay more.

One who pretends to know says that the truth concerning the origin of the strike is this: A close corporation has been formed by the local operators, and they have caused the miners to go into a state of organized rebellion. It is said that of previous years, and were supplying the public institutions at those rates. W. P. Reid, of Chicago, was associated with these local operators so far as the Hocking Valley is concerned. He is a man of great energy and influence, and is claimed to be the man who participated in the strike on Pittsburg coal. He was of the opinion, it is said, that the miners could not be beaten in any case. Consequently, Mr. Reid went on his hook with Pennsylvania coal, and "swung up" by taking the contract for supplying the Columbus Gas Company. If this arrangement is true, the miners in the Hocking Valley, and the result was that they asked for a reduction in the price of mining. It is claimed by some that bad management was therefore the prime cause of the trouble.

In September last the miners held a general convention in his city, and do it that they would not ask for the winter schedule, eighty cents per ton, but that they would go to work for seventy cents per ton. This was agreed to, and the miners were directed to go into a state of organized rebellion. The miners had to make do if the present programme is not interfered with. The men against whom are mostly miners have been returned and are again charged with the task of attacking the miners. The miners are making fair wages at fifty cents a ton. But this does not solve the problem of wages or settle the difficulty in the valley, and to all present appearance the trouble is near over than when it first began.

**ONE HUNDRED ARRESTS TO BE MADE.**

COLUMBUS, O., Nov. 28.—It is stated that the miners are to be arrested in force when the arrest of a man who participated in that insurrection on Strasburg Railroad November 5, and who, reliable information says, will also make a complaint and give the name of a part of the miners who participated in the strike on Pittsburg coal. The arrest to be made to-day if the present programme is not interfered with. The men against whom are mostly miners have been returned and are again charged with the task of attacking the miners. If this arrangement is true, the miners in the Hocking Valley, and the result was that they asked for a reduction in the price of mining. It is claimed by some that bad management was therefore the prime cause of the trouble.

In September last the miners held a general convention in his city, and do it that they would not ask for the winter schedule,

eighty cents per ton, but that they would go to work for seventy cents per ton.

This was agreed to, and the miners were directed to go into a state of organized rebellion.

**THE DAILY BULLETIN.**  
FRIDAY EVENING, NOV. 28, 1884.

OREGON's official vote is: Blaine, 26,851, Cleveland, 24,593, Butler 728, St. John, 488.

There is a rumor abroad that Butler has not been fully paid for his deal with the Republican National Committee.

CHARLES S. VORHEES, a son of Senator Vorhees, of Indiana, has been elected a delegate in Congress from the Washington Territory. He wiped out a Republican majority of about three thousand.

REV. DR. BUCHARD, of the three R's fame, asked in a sermon on Sunday why he wasn't in heaven. It is just possible that there is some Blaine Republican ready to declare it is because it is the reverend doctor can't get there.

A RECOUNT of the vote for Brand, Democrat, and Leman, Republican, candidate for the Legislature in Illinois, shows that the former is elected, thus securing a Democratic Legislature on joint ballot and the election of a Democratic Senator.

THE Lone Star, always politically brilliant, contributes a particularly brilliant lustre to the Democratic firmament this year. In 1876 Texas gave Tilden 60,000 plurality. In 1880 Hancock carried the State by 93,000 plurality. This year Cleveland will have at least 115,000 majority over Blaine.

Men cannot do business without taxing the people to help them they had better quit and let somebody else who can have a chance. The principle of forcibly taking the money of one man to pay another man for doing business is wrong. Tariff reform in the right spirit will correct this outrage.

The business outlook of the country is much better now than a few weeks ago, when the best interests of the country were menaced by Blaine's possible election. There is not the slightest doubt that his election would have precipitated a panic. The truth is that the solid business men of the country were afraid of him.

It is a noticeable and very significant fact that the only mills and industries shutting down throughout the country are those most "protected." The cause is over-production, which results from enormous profits made by the unnecessary tariff tax taken out of the pockets of the people and put into the pockets of the protection barons through the Republican tariff law. It is time for this robbery to cease.

Since the election that Blaine newspapers have been engaged in a crusade against the preachers. Their especial grievance against Dr. Burchard is not yet satisfied, and in New Haven the local Blaine organs have stirred up public sentiment against Rev. Thomas R. Bacon, who is a republican but voted against Blaine. Mr. Bacon has been forced to resign. Evidently the Blaine republicans imagine they can scare the ministers as badly as they frightened the colored people.

There is strong evidence not only in the cities but in the manufacturing centers that Republicans are endeavoring to create the impression that the election of Cleveland will tend to make hard times harder. The leading Republican papers are straining every point to magnify the commercial difficulties and the distress among manufacturing enterprises, and they are finding willing instruments in their work in many of the manufacturers themselves. It may safely be predicted that this will prove to be a short-sighted policy and will fail absolutely of the purpose intended to be reached.

The election of Cleveland can have exercised no influence on the manufacturing or commercial interests of the country up until this time. Nevertheless in all sections manufacturers are reducing the wages of their employes and giving out the fraudulent and fictitious reason that the election of Cleveland compelled action. When a business house fails the Republican papers charge that the same cause is responsible for it, and the gloomy refrain which they sing is taken up in chorus by the disappointed politicians on the street corners. But they are sowing to the wind in this foolish manner and will reap the whirlwind.

The indications are that the approaching winter will be one of hardships and distress for poor people. Wages will be low and work scarce. But if Blaine had been elected the result would have been the same. When the winter is over, however, and the springtime comes, business will revive and the very efforts which republicans are now making to depress it will then turn to the advantage of the incoming party. With Cleveland's inauguration economy in administration will aid the reviving trade to make business blossom with prosperity. During the winter of distress surpluses will be reduced and at its conclusion all interests will be buoyant with hope and revived with the certainty of a fostering and sustaining hand in power.

REPRESENTATIVES WILL move for the passage of the Merriam bill, which is to provide for the recompensing of Congressmen. It has already passed the Senate. It authorizes the issue of circulation to the per value of all bonds outstanding bearing a rate of interest greater than 3 per cent.

**CONDENSED NEWS.**

BLAINE's official majority in Iowa 18,352. SOUTHERN Illinois is overruled withображен.

BLAINE's official plurality in Massachusetts 24,372. P. T. BARNUM's large giraffe, costing \$11,000, is dead.

WINTERFORD MILLS, at Taunton, Massachusetts is closed.

TWENTY Socialists are on trial for high treason at Vienna.

EXTRAORDINARY fall of snow makes slighting good in Michigan.

A PILOT boat containing two Norwegian sailors was lost in Lake Superior.

CHARLES H. COOPER, of Adrian, Michigan, is in jail for stealing from the mauls.

At McKeever's a locomotive ran over and killed two little children named Kennedy.

The newsboys of Boston got a Thanksgiving supper, given by the Mutual News Company.

Two German Reichstag has voted to pay its members' salaries. Bismarck opposed the measure.

GENERAL LOGAN has given up his residence in Washington. His term as Senator expires next month.

Four scholars has so materially decreased in Paris that the publication of bulletins has been stopped.

SERGEANT J. B. CAMPBELL, in charge of the signal service office at Fort Smith, Arkansas, is dead.

JAMES A. McDONALD, Canadian Farmer, was given a banquet in London by the Marquis of Lorne.

The flames spread so rapidly that nothing could be saved and the car and contents were destroyed. The claim is created.

Matrimonial battles are hot in the Hocking Valley, Ohio. Governor Hooley has concluded to call out the militia. A dispatch says: "The miners can take their choice of being starved out or shot down by the soldiers."

It is reported that Dr. Franklin Pierce, of Worcester, Massachusetts, who applied kerosene oil to the throat and breast of Mary A. Beaman last January, from which the woman did, will have to suffer the penalty of man-slaughter.

JOHN W. BENTON, beautiful Bentonthing, on the Michigan Central Railroad fired from the heater while running at a high rate of speed.

# THE DAILY BULLETIN

FRIDAY EVENING, NOV. 25, 1884.

**ROSSER & McCARTHY,**  
Publishers and Proprietors,  
TO WHOM ADDRESS ALL COMMUNICATIONS

OCTOBER 25TH.

A sociable chat  
Twixt a good Democrat  
And a Republican; subject, "the weather."  
They adjourned for a smile,  
There's a bet of a "title"  
On the question, you know, as to—whether?

NOVEMBER 25TH.

A Republican blue  
And a Democrat blue;  
Blast it at the bather's awhile,  
When they go thence together  
(Dissensing—"the weather")?  
The Democrat wears the tie!

[—New York World.]

BUSINESS is steadily improving in this city.

THE Lexington reservoir has a capacity of 100,000,000 gallons.

KANAWHA River is rising and a small run of coal may be looked for.

THE Lexington Soap Factory is turning out 13,000 pounds of soap per week.

THERE is a small supply of nut coal in the city. It sells for fourteen cents a bushel.

THANKSGIVING day was generally observed in this city and passed away very satisfactorily.

DON't fail to attend the Thespian Entertainment to-night. The performance is to be repeated by general request.

Do not forget the protracted meeting to begin at the South Methodist Church Sabbath evening. Dr. J. Young is to assist the pastor.

DANGEROUS counterfeit silver dollars are said to be in circulation. The date of the 1884, and have a clear and almost perfect ring.

SLEEPY merchants make a sleepy trade every time. The wide-awake tradesmen who advertise liberally inevitably does a rushing business.

A TOBACCO barn belonging to Frank Collins, near Lexington, was burned to the ground on the 26th inst. It contained seven acres of tobacco.

On account of the inability of Rev. Mr. Garrett to be present, the meeting announced for this evening in the M. E. Church will be indefinitely postponed.

M. HENRY GREENE, conductor on the K. C. R. R., resigned his position this morning. He was one of the most polite and obliging officials on the road.

TRIM your grape vines before the wood freezes. You have more time now than in early spring, and it is better for the vines. Any time after the foliage drops and previous to hard freezing weather, will answer.

THE Mountain Girl has been withdrawn from this trade. Parties interested in Kentucky River navigation are at Cincinnati with the intention of buying her provided she can be secured on suitable terms.

THE Lexington Press states that the Breckinridge Club, of that city, the first political organization in the South to attend a national convention since the war will attend the inauguration of President Cleveland, whom it saw nominated at Chicago.

DEVON, the weather prophet, says: "I will venture to predict that there will be more brilliant sunsets, and the sky will be redder than last year every cold spell this fall and winter. When we have a brilliant sunset the wind will shift to the South and it will grow warmer, and three days after it will rain."

MASTER HENRY LUD HAMILTON, aged nine years, fell into the river, from one of the coal barges at the elevators, yesterday afternoon and would have drowned except that Charles Walker, a colored man, who happened to be near, jumped into the water and saved him. Master Hamilton will hereafter keep away from the river.

To pay a wage made on the recent Presidential election, Mr. William Carr will-to-morrow afternoon at one o'clock wheel Mr. T. A. Keith in a wheelbarrow from the coal elevators to Mr. Keith's home in the lower part of the city. The procession will be headed by a fife and drum. Everybody is invited to turn out and witness it.

DR. HENDERSON says: "Yesterday was a gay day with us. My church people and dear friends of other churches commenced pounding us from early morn to dewy eve," and the Doctor cried out, "Lay on McDuff." The full pantry today tells the tale. "Go thou and do likewise," saith the powdered pastor to other churches.

## PERSONALS.

MISS IDA BLISS is teaching a class in elocution at Covington.

MR. AND MRS. L. W. PIERCE returned to Cincinnati this morning.

MISS OLLIE BLISS is the guest of the family of Mr. George Burrows.

MISS LIZZIE LLOYD, of Lexington, is the guest of Mrs. John Lloyd, of this city.

MR. HENRY SCHWALL and Miss FRANCES LANG were married at Ripley this week.

MR. ROBERT STIVERS and Miss BETTY BATES, were united in marriage at Ripley, O., on Thursday evening.

THE Owingsville Outlook says: Mr. THOMAS WATSON, formerly of Mayfield, and a very popular commercial traveler, has removed his family to this place, where he will make his headquarters in the future.

LAST Thursday night Sanford Carpenter and Miss ELLIE SMITH, both residents of Millersburg, were married at the Galt House, in Louisville. They are now on a trip to Missouri to visit the groovin's relatives.

THE Thespian entertainment at Neptune Hall, last night, was successful beyond the fondest hopes of its originators. The hall was packed and crowded with an audience of our most critical people and many were unable to secure even standing room and had to be turned away. The stage arrangements were perfect and there was not a hitch or half torn away. The entire performance. The first play was "Rain and Fair Weather," a beautiful little drama translated from the French for this occasion. Finished elegantly, it received a charming rendition by Miss ANNIE MORGAN, the Baroness, and Mr. THOMAS R. PHISTER, the Stranger, and Miss MAGGIE BURROWS and Mr. WILLIAM WOOD, as Victoria and Anselmo, added much to the pleasing effect of the play. The next play, "Perfection," was warmly applauded throughout. Miss Sallie Dauberry as Katie O'Brien, looked lovely and played exceedingly well. Mr. THOMAS R. PHISTER acted Charles even better than the Stranger and Mr. G. T. Hunter, as Sir Lawrence, represented to perfection the elderly bachelor. As Susan, Miss BETTIE COONS was very pretty and her acting was quite graceful, and Mr. FRANK MANNEI did very well as Sam. The performance concluded with "Thirty minutes for refreshments," a laughable farce played by Messrs. DUDLEY SADLER, Thomas Pogue, Harry CURRAN, Will Sutherland and Miss MAGGIE BURROWS, Bettie Coons and Bessie Morgan, who brought down the house by their happy hits. By general request the performance will be repeated to-night, and those who failed to see it last night ought not to miss it if they wish an evening's hearty enjoyment.

WHAT PRETTY WOMEN do. [Whitehaven Times.] Women with pretty teeth open wide their mouths enough to let women with pretty hands like to shake hands with their frien's. Women with pretty eyes look you straight in the face. Women with pretty eyebrows and hair like to look right in the fl—r. Women with pretty arms naturally stand with the ell's we skin-hu.

Women with a musical laugh fill the air with silver-sprayed tones. Women of modest mien boldly display their rich crimson blouses. Women with full-jeweled forms are advertisements for their dressmaker.

IT is utterly impossible for even a successful Presidential candidate to feel as though he is a success. This is all that is asked of him for the first time. "What time is it, sonny?" sold a gentleman boy on an Austin street car. The boy smiled, and looking at his astronomical time pieces, replied:

"Do you want the exact time?"

"In two minutes it will be three minutes to a quarter past three," replied the young man. [Texas Siftings.]

THE following marriage licenses have been issued in Brown County, Ohio, since our last report:

HENRY PURVIS and Sarah E. PITTERER; Stephen O'CONOR and Nellie BURTON.

CITY LIFE MEMES.

TRY Langdon's City Butter Crackers.

Window shades at cost at Kackley's old stand.

ALL the novelties in ladies' fine shoes at Ranson's.

INSURANCE is a great help. To prove this give me a call. J. T. KACKLEY.

GILT wall paper at 25 cents per bolt, slightly damaged, at J. T. Kackley's old stand.

Two thousand toys from one cent to one dollar. A great reduction in these goods at Kackley's old stand.

WALL paper at 7, 8, 9, 10, 12, 15, 20 and 25 cents per bolt. Call early. J. T. KACKLEY.

SEASIDE and Lovell's library 10 or 20 cents per volume, received daily, at G. W. Blatterman's. Books exchanged.

Books in sets, Dickens, \$8; Bulwer, \$12; George Elliott, E. P. Roe, Alcott, Abbott's, &c., &c., at Kackley's.

YOU can buy Thackeray, Dickens, Eliot, Hawthorne and good reading in the cheap library, at G. W. Blatterman's.

The difference in expenditure between this and other nations in this respect is very large, and it is more than the whole of the difference goes to secure better clothing or more attractive clothing.

About as much more, at the least, this people spends in drinking and smoking at times when there is not even a desire to be so much. It is really foolish to drink or to be worshipped with such timidity.

If the people can save \$300,000,000 within a twelve month, without the sacrifice of any real desire, except the desire to "keep up appearances," to be in the fashion and to do as others do, that would be an interesting result, would go far to prevent suffering.

Waste in Dress.

In clothing alone, a capable writer has said, the American people could save \$150,000,000 yearly, and yet get really more useful and more attractive garments.

The difference in expenditure between this and other nations in this respect is very large, and it is more than the whole of the difference goes to secure better clothing or more attractive clothing.

About as much more, at the least, this

people spends in drinking and smoking

## Fashions in False Hair.

The front hair is arranged in light curls or bows, hats, plumes, birds and trimmings of all kinds, to which I invite the attention of the ladies. My prices are very low. (281w)

ANNA FRAZAR.

I have just received a new stock of millinery goods, including velvets, ribbons, hats, plumes, birds and trimmings of all kinds, to which I invite the attention of the ladies. My prices are very low. (281w)

ANNA FRAZAR.

A CARD.—To all who are suffering from errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a receipte that will cure you, free of charge. This great remedy was discovered by a missionary in South America. Send self-addressed envelope to Rev. Joseph T. INMAN, Station D, New York. mif62kdwly

## Cards for Pictures.

Piles are frequently preceded by a sense of weight in the back, loins and lower part of the body, especially in the kidneys, and he has some affection of the kidneys or neighboring organs. At times, symptoms of indigestion, &c., occur. There is also a sense of pain in the stomach, etc. A moistur, like perspiration, produces a very great itching, particularly when it is a common attack. Blind, bleeding and itching piles yield at once to the application of a poultice.

Blind, bleeding and itching piles yield at once to the application of a poultice.

Price 50 cents. Address the Dr. BOSSARD, Medline Co., Pluma, O., or Geo. T. Wood.

—

JUST AS GOOD.

Many unscrupulous dealers may tell you they have remedies for coughs and colds, but the old and reliable Dr. BOSSARD's Cough and Lung Syrup, and unless you insist upon it, you will be imposed upon. Price 50 cents.

Well, judge what do you think of the recent election?" said the reporter.

"It is pretty bad; but you fellows won't."

"But I expect we will beat you in 1885."

"Because your leading men will go in too brash and make mistakes."

"What do you think of the Republi-

cans officiating holding over by tenure of the civil service rules, under Cleve-

land?"

"That is all boss; it amounts to nothing;

the Democrats have won the race fairly, are entitled to offices and should have them. All terms end with the ad-

ministration, and it is right. A President is responsible for his administration, and he should have the power to fill all the vacancies."

The Senate will confirm all proper appointments."

The boy smiled, and looking at his astronomical time pieces, replied:

"Do you want the exact time?"

"In two minutes it will be three minutes to a quarter past three," replied the young man. [Texas Siftings.]

IT is utterly impossible for even a successful Presidential candidate to feel as though he is a success. This is all that is asked of him for the first time.

"What time is it, sonny?" sold a gentleman boy on an Austin street car.

The boy smiled, and looking at his astronomical time pieces, replied:

"Do you want the exact time?"

"In two minutes it will be three minutes to a quarter past three," replied the young man. [Texas Siftings.]

## A DOCTOR'S AWFUL DEED

Murders His Four Children and Attempts to Kill Himself.

**Brunal Murder of a Woman—A Prisoner Assassinated—Arrested for Embezzlement—Gone to Canada—Abduction, Etc.**

**SPRINGFIELD, O., Nov. 28.—John Maxwell, a practicing physician of this city, who recently came here from Selma, Ohio, sent his wife up town yesterday on a pretext. In her absence he tied clothes strongly about his person with chloroform, over the mouth of his children, and left them for from one to thirteen years, two boys and two girls. He then drank a quantity of the drug himself and, applying the cloth to his nostrils, laid himself down and soon fell into a deep sleep. When his wife returned at supper time she was frenzied at the discovery of her entire family being laid out in the above condition. Laura, twelve years old, was already dead, and the remainder were insensible. The physician had been drinking heavily, and Cuticura and Cuticura Soap in proportion, and call myself completely cured.**

**F. R. BURGESS,  
Waterford, N. J.**

**Heribert Clark, member of a prominent banking firm at Moscow, suddenly disappeared. Foul play was suspected for a time. It is just discovered that Clark has gone to Canada. Clark was a representative young man and enjoyed a splendid reputation for business integrity. He left wife and two children at Moscow. His standing is not affected. It is alleged Clark has overdrawn about \$12,000.**

**GOING TO CANADA.**

**PORTLAND, ORE., Nov. 28.—Some weeks ago Heribert Clark, member of a prominent banking firm at Moscow, suddenly disappeared. Foul play was suspected for a time. It is just discovered that Clark has gone to Canada. Clark was a representative young man and enjoyed a splendid reputation for business integrity. He left wife and two children at Moscow. His standing is not affected. It is alleged Clark has overdrawn about \$12,000.**

**ATTACKED BY INDIANS.**

**PORTLAND, ORE., Nov. 28.—About ten days ago Thomas McCarty and James Honey, oil residents of Union County, Oregon, left their home on a prospecting tour for gold. Since then nothing has been heard of them. They can hardly be expected to return alive. Two Indians were shot and mortally wounded a few weeks ago in that country by whites. The Indians swore to have revenge, and there is scarcely a doubt as to the fate of Henry and James.**

**AN ABDUCTION.**

**SAN FRANCISCO, Nov. 28.—October 30, while Mrs. R. E. T. Reeve was visiting at the residence of Dr. E. J. Toop, 120 Hall street, New Haven, three men rushed into the house and carried off Mrs. Reeve. Mrs. Reeve said one of the men was her divorced husband. A gentleman just arrived here says he saw Reeve and the girl on a Southern Pacific train en route for this city. They were identified beyond doubt.**

**A WOMAN KILLED.**

**TYLOR, Texas, Nov. 28.—John Lubenborg, one of the fifteen prisoners who broke jail here Saturday, was recaptured yesterday, and while being brought back was fired upon from behind a bush by the roadside and instantly killed. Lubenborg was a man of little education, thirty years old, in the penitentiary for a murder committed eighteen years ago. There is no clue to the assassin.**

**ALLEGED FRAUDULENT INVESTIGATOR.**

**OAKLAND, Calif., Nov. 28.—William D. Cleap, a clerk in the cashier's office of the Union Pacific Railway, was arrested yesterday on a charge of embezzling about \$3,000. It is said he had stolen most of the money during the last three or four months and spent it upon variety actresses.**

**CHARGED WITH SWINDLING.**

**FORTH WORTH, Tex., Nov. 28.—W. J. Murphy, a very active man, formerly connected with the Texas Investment Company and manager of the Gazette, was arrested on a charge of swindling, the arrest causing a profound sensation. A man named Crane, living near Fort Worth, fifty-five miles west of Dallas, had come to the company to get an account of his head. The cattle were sold for \$3,000 and two drafts taken in payment. Murphy, as President of the Investment Company, transferred the drafts to Murphy & Hendon individually. The Investment Company failed over \$100,000, and Crane had no money, and so had Murphy indicted. Murphy is President of a small railway company, and is prominent in other enterprises. He claims the company owed him, hence the transfer of the draft.**

**MURDER IN THE FIRST DEGREE.**

**PITTSBURGH, Nov. 28.—In the trial for the killing of John Tammer, a saloon keeper, the jury retured to deliberate, and after two hours they returned with a verdict of guilty of murder in the first degree.**
